

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

LIVINGSTON'S LAW REGISTER;

CONTAINING

THE NAME, POST OFFICE, COUNTY AND STATE

OF

EVERY LAWYER IN THE UNITED STATES:

ALSO,

A LIST OF ALL THE COUNTIES, WITH THEIR SHIRE-TOWNS;
AND THE LEGAL RATES OF INTEREST
IN EACH STATE.

TOGETHER WITH

THE LEGAL FORMS FOR THE ACKNOWLEDGMENT OF DEEDS
IN EVERY STATE.

BY JOHN LIVINGSTON,

OF THE NEW YORK BAR, COMMISSIONER RESIDENT IN NEW YORK, FOR EVERY STATE IN THE
UNION, AND NOTARY PUBLIC.

NEW YORK:

PUBLISHED AT THE OFFICE OF THE MONTHLY LAW MAGAZINE,
157 BROADWAY.

1851.

ENTERED, according to act of Congress, in the year 1851, by

JOHN LIVINGSTON,

in the Clerk's office of the District Court of the United States, for the Southern District of New York.

P R E F A C E.

THE multiplied and increasing business relations between the different portions of this great Republic, seem to render a publication of this description a convenient and useful manual, not only to those who are engaged in the practice of the law, but to bankers, merchants, manufacturers, insurance companies—in short, to all who are employed in active business, and have occasion to make inquiries appertaining to matters at remote places, in which they have no acquaintance, or who desire to transact affairs at a distance by correspondence with gentlemen of the profession. Every practicing lawyer must perceive the utility of this list for occasional reference, and as a most effective means for the transaction of business at all points in the Union.

As the value of the Register must depend upon its correctness, the Editor desires to say, that the entire catalogue contained in the following pages has been compiled from official returns obtained from the clerks, recording officers, and sheriffs of the various counties. Without the assistance of these officers, who, with few exceptions, have been found intelligent and obliging, the work could not have been compiled; and the Editor begs to tender them his sincere thanks for their valuable labors, and their prompt replies to his inquiries.

To all who are familiar with undertakings of this nature, it will be evident that great labor and expense have been encountered in the preparation of this list. Though the utmost pains have been taken to avoid mistakes, it would be presumptuous to assert, that

none have occurred in a work containing such an immense number of names.

A reference to the work will show that every effort has been made to attain the most perfect classification. In the Synoptic Table are given the names of all organized counties, with their respective shire-towns. This Table having been prepared expressly for the work, by the Secretaries of the several States, may be relied on as correct ; and as new counties are annually organized by the Legislatures of the new States, it is probably the only complete one to be found. Opposite each county will be seen the number of lawyers it contains. The Index gives the names of the post-offices contained in the work ; so that, by the use of the Synoptic table and the Index the inquirer may readily find the names of the Lawyers in any town or county.

At the end of the volume will be found other useful matters, not the least important of which are the various legal forms for the authentication of instruments in writing in every State. To commissioners, judges, county clerks, and other officers whose duty it is to take the acknowledgment of conveyances of real estate, these forms will be found most convenient, and an observance of them will avoid much expense and trouble. Insufficient certificates, made by acknowledging officers, have unsettled the title to much property, and originated no inconsiderable amount of litigation. It is now a settled rule of law, that the *forms* and solemnities required to pass the title must be in conformity with the local laws of the country in which the land is situated.

According to this work, the whole number of Lawyers in the United States is *twenty-one thousand nine hundred and seventy nine*. Supposing that of the above number 979 have retired from practice, and that the annual emoluments of each practicing Lawyer average \$1500 (which we think is nearly correct), we find the total

income of the profession to be *thirty-one million five hundred thousand dollars* a year.

The number of Lawyers in each State is as follows:—

Alabama, 692; Arkansas, 264; California, 68—(returns incomplete); Connecticut, 335; Delaware, 50; District of Columbia, 61; Florida, 115; Georgia, 698; Illinois, 710; Indiana, 732; Iowa, 243; Kentucky, 886; Louisiana, 479; Maine, 527; Maryland, 543; Massachusetts, 1,040; Michigan, 422; Minnesota, 24; Mississippi, 700; Missouri, 584; New Hampshire, 303; New Jersey, 307; New Mexico, 13; New York, 4,374; North Carolina, 435; Ohio, 1,639; Oregon, 20; Pennsylvania, 1,739; Rhode Island, 112; South Carolina, 433; Tennessee, 735; Texas, 499; Vermont, 442; Virginia, 1,278; Wisconsin, 477.

THE EXECUTION AND AUTHENTICATION OF DEEDS.

IN many of the States two witnesses are required to the execution of deeds, while some require only one witness, and others none at all. The *safer* course would be to have the deed witnessed in all cases by at least two persons. In most of the States a scroll or device used as a seal has the same effect as a seal of wafer or wax; but, as in some States a scroll is not regarded, the officer before whom the deed is executed, should affix a seal, unless familiar with the laws of the locality where the same is to be used.

It is a settled rule of law, that not only the capacity of persons to convey or devise real estate, and the right to inherit, but also the forms and solemnities required to pass the title, must be in conformity with the local laws of the country in which the land is situated. [1 Pick, 86; 7 Cranch, 195; 9 Wheaton, 2; 10 Wheaton, 192; Story on conflict of Laws, 364; 4 Kent Com., 440. It is therefore of the utmost importance that acknowledging officers should make their certificates in legal form, and it is believed, the following will enable them to do so.

PLAN OF THE AMERICAN LEGAL ASSOCIATION.

THE AMERICAN LEGAL ASSOCIATION was established in the early part of 1849, for the purpose of ensuring safety and facility in the collection of claims and the transaction of legal business at every point in the United States. It comprises at least one prompt and reliable practicing lawyer in each of the principal cities and villages. The Association now numbers over sixteen hundred members, who are among the most intelligent and worthy gentlemen of the profession. Faithful and competent men, upon whom the business-public and the profession can rely, they will always be found at their posts, ready to give prompt and efficient attention to such matters as may be entrusted to them. To accomplish the object for which it was instituted, the following plan has been adopted :

Every practicing lawyer who subscribes five dollars, and furnishes the Institution with satisfactory evidence of professional integrity and capacity, is a member thereof for two years, and is entitled to all its privileges and advantages.

The money thus obtained is applied—

FIRST.—To the publishing of Manuals, containing the name and place of residence of each member, together with the regulations, objects, &c., of the Institution.

SECOND.—To the distribution of such Manuals among the business public.

THIRD.—To the insertion, in newspapers, of such advertisements as will show the design of the Association, and inform the public of its facility and safety as a means of making collections and transacting professional business at every point in the Union.

The Institution presents to the practicing lawyer advantages which he could not acquire through any other source, and is the most effectual means that could be employed to extend a favorable knowledge of his business. It is managed by a board of Directors, composed of thirty-two members, (one of whom is chosen from each State,) who receive no compensation.

All applications for admission, and communications relative to the business of the Association in New York, should be addressed to the *Secretary*, JOHN LIVINGSTON, at the Office of the Association, 157 Broadway, New York.
